Date: 11.05.2022

**CIRCULAR**

Subject: Non requirement of "Lab Clearance" certificate for processing final bills, for works awarded after 01.04.2019.

Presently, CIDCO Material Testing Laboratory (CMTL) collects testing charges along with GST and then only admits the sample for testing. This procedure is being followed by Laboratory since 01.04.2019.

Therefore, for the works awarded by Corporation after 01.04.2019, all the testing is conducted at CMTL, only after receipt of online payment towards testing charges from contractor. Hence, "Lab Clearance" certificate from CMTL becomes trivial and in order to reduce a part of unnecessary documentation, the proposals for final bills shall be processed without obtaining "Lab Clearance" certificate from CIDCO Material Testing Laboratory.

However, for works awarded by corporation before 01.04.2019, the "Lab Clearance" certificate from CIDCO Material Testing Laboratory is mandatory for processing final bills of contractor, as practiced earlier.

All EEs / SEs to note that, for the works awarded by Corporation after 01.04.2019, "Lab Clearance" certificate from CMTL is herewith rescinded as mandatory document for Final Bill proposals whereas for all works awarded by Corporation before 01.04.2019, the "Lab Clearance" certificate is mandatory and shall be obtained as practiced earlier.

This circular is issued as per approval of CE (NM).
