

C I R C U L A R

It is observed that recently the plot owners are approaching EE (PP-I) Division and the nodal Division for R.E.L.'s required for finalization of site elevations which is a mandatory document regarding development permission of plots.

The single windows system which was implemented as per the directives of V.C. & M.D. to avoid the delay in co-ordination with multiple departments and also to make the procedure easy, speedy and customer friendly will continue. All the as built drawings available with EE (PP-I) pertaining to R.E.L. of all nodes were handed over to ATPO (NM & Khopta) on 09/05/2014. In case any additional data (work executed after this date) is required which is available with EE (PP-I), the same can be handed over to ATPO (NM) as per their request.

The Circular is issued as per the directives of CE (NM).
