25.04.2017

Your letter no STEP/CIDCO/17/229 dtd 15th June received in our office on 15th June
2017

Dear Sir,

Vide our letter dtd 27.06.2016 we had granted registration of your RMC plant up to 30.09.2016 as your lease agreement and MPCB's consent to operate certificate were valid up to 30.09.2016. Subsequently as CIDCO temporarily extended lease up to 31.03.2017 to the original owner you extended your land lease agreement with the original owner up to 30.03.2017. You also submitted MPCB's consent to operate certificate up to 31.03.2017. After submission of above two documents the validity of the registration was extended up to 31.03.2017.

Vide your letter dtd 11.04.2017 you had asked for consent to extend renewal of registration up to 30.09.2017 as you had applied for MPCB's consent to operate certificate to MPCB and submitted Bank guarantee as desired by them. Vide our letter dtd 19.04.2017 we had granted permission to temporarily supply concrete to CIDCO works subject to 100% testing

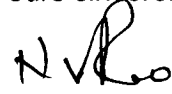

of all RMC for compressive strength and permeability and other quality control tests as given in QAM of CIDCO works.

Vide your letter dtd 25.04.2017 you had submitted an undertaking indemnifying CIDCO from all legal liability and other issues that may arise due to non submission of MPCB's consent to operate RMC plant certificate and also stated that as soon as MPCB's consent to operate certificate is given, we shall submit it. This issue was discussed with competent authority and it was decided to withdraw the temporary permission granted to you for supply of concrete to various CIDCO works.

In view of above in view of above you are hereby directed to stop supply of concrete to various CIDCO works.

Thanking you,

Yours sincerely,

N.V.Rao
